Dear Don:

As Manager and Producer of Media Services here at The Credit Valley Hospital, I am pleased to provide Otec Solutions with a testimonial letter.

Credit Valley Hospital first became involved with Otec Solutions in April of 2002. Numerous initiatives including the original implementation of the Canto Cumulus DAM system provided me the opportunity and experience to comment overall on Otec Solutions products, services and most importantly it's people.

Quite simply Credit Valley Hospital could not be more pleased with Otec Solutions and the relationship between our companies. Our latest project, the Canto Cumulus Version Upgrade was delivered on time, implemented smoothly and is continuing to deliver a growing and valued service to both our department as well as the entire hospital. I look forward to our continued relationship to extend the use of this valuable corporate tool.

I recommend Otec Solutions products, services, and most importantly the Otec Solutions team to any prospective client and would be pleased to share my experiences with others.

Sincerely,

Arthur Uyeyama
